NOFORN
EXCLUSIVE FOR GEN TWINING FROM GEN NORSTAD

In the short time I have had to consider four-agency military and non-military studies which you forwarded from Washington last Saturday, I have not been able to study them in detail. In general, however, both papers appear to be reasonable and useful for background purposes. If made available for that purpose, they will be a useful contribution to the work of our LIVE OAK Planning Group.

As a general observation, I am sure you appreciate that much remains to be done in spelling out the initial probe effort, in considering the practical difficulties of disengaging forces once substantial opposition is met, and in determining the military realities of extricating a force once it becomes involved with strong opposition. These are points with which the LIVE OAK Group will concern itself on an operational level.
